Tuesday Evening Presentations
8:30–10:00 pm

Admission is free. No reservations are required.

The Impact of Trauma: The Mind in Times of Social Violence and Social Change

This year's scientific meetings focus on the psychological consequences of social disruption and social violence, a topic especially relevant in these times of economic hardship and political upheaval.

These meetings will provide a forum to study how psychoanalytic thinking contributes to the understanding and to the work of psychological and sociological repair of traumatized individuals and communities. We look forward to having an active dialogue with the audience.

Tuesday, October 20, 2009

Mt. Sinai Medical Center, Hatch Auditorium, Madison Avenue & 100th Street
